EMBRACING IMMEDIATE IMPLANT PROSTHODONTIC SOLUTIONS FOR PATIENT CENTERED CARE

Providing implant prosthodontic care today requires an appreciation of emerging new technologies and protocols for patients demanding same day solutions. One constant is the importance of gaining a profound understanding of how our patients value implant prosthodontic solutions that we are willing and able to provide. The existing barriers to providing implant prosthodontic care will be discussed as well as viable solutions to mitigate these barriers. Patient centered care should be seen through the lens of how it directly impacts our patients' everyday lives. The provision of same day implant prosthodontic solutions is a sought after and attractive way to take care of our patient family as well as provide us clinicians with challenging, yet exciting and gratifying treatment solutions.

OBJECTIVES

- Identifying the barriers to implant prosthodontic care
- Immediacy - A viable protocol to overcoming the barriers to implant prosthodontic care for the single tooth and full arch solution
- Immediacy - Same day solutions - attractive implant prosthodontic options for patient centered care
